NOTICE OF VOID JUDGMENT(S)

Dear clerk of court;

You are hereby notified that any and all judgments, decrees, opinions and orders in the above listed cases are null and void due to lack of bonding by any of the alleged judicial officers. The Colorado constitution and the revised statutes provide execution of law impeaching all the actors involved in any of the cases, and beyond, as described in the attached 5-page Complaint to the Tenth Circuit Executive, David TIGHE. TIGHE has defaulted on the Complaint which was served on his office in Denver on 10/25/16 and also copied to the two cases in the USDC Denver 15-53 and 15-145.

I have enclosed a full copy of the Complaint, complete with the Attachments but for brevity I am only including the five pages of text in this Notice. The Attachments were mostly the deviant oaths of the "officers" acting on the four cases in your court, and also showing intent and culpability for dodging proper bonding - as the Attachments included earlier, properly bonded oaths by the same "officers" proving that they intentionally are sitting in vacant offices as described by Colorado law.

The Tenth Circuit Executive has defaulted on settling the outstanding acting fees arising from the vacant-office actors and therefore you are notified that any and all judgments, decrees, opinions and orders arising in any of the cases captioned are null and void.

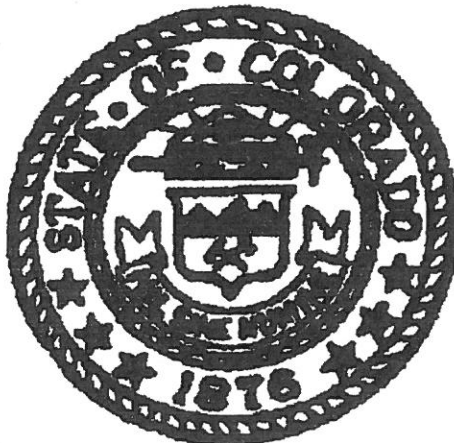

I wish for you to file the complete Complaint in the Case #30574 and the copies with only the five text pages as you see them marked in the other three case files. This should be adequate for proper notice. A copy is being mailed to the Tenth Circuit Executive as verified by the receipt tracking numbers.

Certification

I hereby certify that I have exhausted all administrative remedy and that no judicial officers are to be found. The oath of office is sacrosanct as a fungible fidelity bond and any alteration nullifies all legal effect. Evidence repositories cited in the five-page text Complaint to David TIGHE, pretending Tenth Circuit Executive in Denver, Colorado describe and demonstrate criminal collusion of which I will not participate. To describe this more gently the deviations in the oaths of office are coerced equity courts, diminishing the constitutionally intended judicial branch of government. That the trained and literate attorneys do this at all defines a concerted collusion so that I cannot become involved at all without implying my consent to fraud. Reasonable sensibilities direct and dictate that this coerced equity forum is presented under fraudulent pretense.

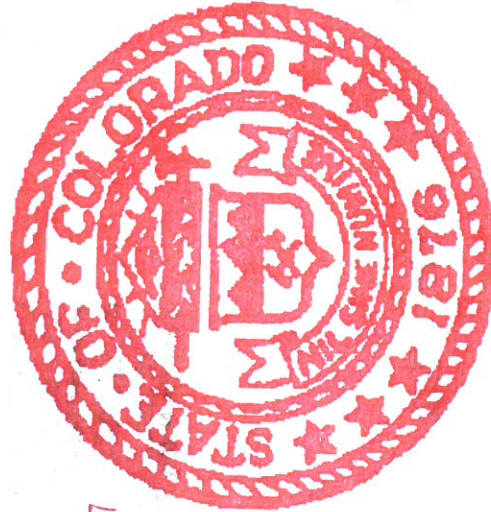

I certify that this is a true bill and has been properly processed by execution of law.
